

DEVELOP

The human mind naturally seeks to **learn, understand and develop.** Throughout our years in business, as professionals, we are encouraged to keep up to date with trends and risks in our industry. The web, used by all for effective communication, legal updates and more, and our business networks, provide more than just another hour of reading. In fact, they form the baseline definition of **CPD – Continuing Professional Development.**

AC Develop provides a platform which offers you audio, visual and face to face content and records your participation by means of a verifiable assessment that confirms your comprehension of subject matter and records your CPD.

Product Suppliers of insurance, UMA's, NMI's and Employers can also participate in this platform to provide and record the required Product Specific Training with an option for CPD for Brokers and Staff.

AC Develop's CPD platform provides clients with access to online activities that enable more than the 18 hours of CPD required by the FSCA. It includes:

- Legislative update activities
- HR guidance and Soft Skills
- Insurance Technical activities in Short Term generalist and
- Specialist insurance areas, including:
Trade Credit, Marine, Aviation, Agri, Engineering, Guarantees/Bonds, Liability to name a few

Our programs provide a range of activities from online modules to events, so that persons have a choice of activities best suited to their work environment. We also cater for relevant content for Key Individuals and Representatives. All activities are CPD approved with the FPI.

System Facilities include:

- Content modules including:
 - Podcasts
 - Videos
 - PDF Downloads
- Event Registration and Administration
- Integrated reporting across all partners

Content types can include Product Training, CPD Content, Online Learning, Inhouse training content, etc.

Enhanced System Facilities include:

- External CPD Certificate uploads for full compliance reporting
- Document Library for client or product specific forms, videos, in-house newsletters, disclosure notices, internal policies and any other documents which would enhance and improve the experience for your users
- Unique certificates for modules where clients use multiple product providers or sponsors
